

WG2 Expert Meeting on Biomolecules April 27-30, 2015.

Fruska Gora, Serbia

Departure from the hotel at 15 h and drive along the Fruska Gora mountain that proudly stands as the crown of Vojvodina. This is the oldest national park of Serbia. Humanity has been cultivating and taming this mountain for more than two millenia and it still has many lakes, springs and waterfalls hidden inside lush forests and secluded valleys that are awaiting your discovery.

Arrival to Vrdnik monastery, better known as Ravanica. All Fruska Gora monasteries are connected with saints that protect them and help the pilgrims who come to pay homage. Ravanica is related to Prince Lazar Hrebeljanovic, who was the ruler of medieval Serbia, and in his last day he fought a battle, "Great battle of Kosovo in 1389. year". In this battle he defended Serbia against Ottoman empire and Sultan Murat. Both rulers died. This heralded demise of Serbian Medieval state. Prince Lazar became a martyr, sacrificing himself for his people and faith.
